Proposal for a regulation

Recital 13

Text proposed by the Commission

Amendment

(13) The application of the ‘do no significant harm’ principle is essential to ensure that the investments and reforms undertaken as part of the recovery from the pandemic are implemented in a sustainable manner. It should continue to apply to the reforms and investments supported by the Facility, ***with one targeted exemption to safeguard the EU’ immediate energy security concerns. Considering the objective of diversifying energy supplies away from Russian suppliers, the reforms and investments set out in those REPowerEU chapters which aim to improve energy infrastructure and facilities to meet immediate security of supply needs for oil and gas should not be required to comply with the principle of ‘do no significant harm’ and should therefore be exempted from such assessment.***

(13) The application of the ‘do no significant harm’ principle is essential to ensure that the investments and reforms undertaken as part of the recovery from the pandemic are implemented in a sustainable manner. It should continue to apply to the reforms and investments supported by the Facility.
