Report**A9-0260/2022****Dan Nica**REPowerEU chapters in recovery and resilience plans
(COM(2022)0231 – C9-0183/2022 – 2022/0164(COD))**Proposal for a regulation****Recital 13***Text proposed by the Commission*

(13) The application of the ‘do no significant harm’ principle is essential to ensure that the investments and reforms undertaken as part of the recovery from the pandemic are implemented in a sustainable manner. It should continue to apply to the reforms and investments supported by the Facility, with one targeted exemption to safeguard the EU’ immediate energy security concerns. Considering the objective of diversifying energy supplies away from Russian suppliers, the reforms and investments set out in those REPowerEU chapters which aim to improve energy infrastructure and facilities to meet immediate security of supply needs for oil and gas should not be required to comply with the principle of ‘do no significant harm’ and should therefore be exempted from such assessment.

Amendment

(13) The application of the ‘do no significant harm’ principle is essential to ensure that the investments and reforms undertaken as part of the recovery from the pandemic are implemented in a sustainable manner. It should continue to apply to the reforms and investments supported by the Facility, with ***the*** exemption to safeguard the EU’ immediate energy security concerns. Considering the objective of diversifying energy supplies away from Russian suppliers, ***and to make the energy system more sustainable and secure***, the reforms and investments set out in those REPowerEU chapters which aim to improve ***and ensure*** energy infrastructure ***to be hydrogen-ready***, and facilities to meet immediate security of supply needs for oil and gas, ***as well as reforms, investments and measures which aim to boost the uptake of renewables and energy efficiency and to increase energy storage capacity***, should not be required to comply with the principle of ‘do no significant harm’ and should therefore be exempted from such assessment ***and Member States should explain how measures are expected contribute to the REPowerEU objectives and to which extent measures may harm the Union’s environmental objectives. Besides contributing to achieving climate neutrality, renewables, storage and energy***

efficiency measures are essential to promote a more autonomous energy system and, in turn, to increase Union energy security.

Proposal for a regulation

Article 1 – paragraph 1 – point 6

Regulation (EU) 2021/241

Article 21c – paragraph 4

Text proposed by the Commission

(4) By way of derogation from Articles 5(2), 17(4), 18(4) point (d) and 19(3) points (d), the principle of “do no significant harm” within the meaning of Article 17 of Regulation (EU) 2020/852 shall not apply to the reforms and investments expected to contribute to the REPowerEU objectives under paragraph 1, point (a) of this Article.

Amendment

(4) By way of derogation from Articles 5(2), 17(4), 18(4) point (d) and 19(3) points (d), the principle of “do no significant harm” within the meaning of Article 17 of Regulation (EU) 2020/852 shall not apply to the reforms and investments expected to contribute to the REPowerEU objectives under paragraph 1, point (a) of this Article. ***The REPowerEU chapter shall contain an explanation as to why the measures expected to contribute to the REPowerEU objectives under paragraph 1 of this Article principle are the most adequate to reach the REPowerEU objectives and, where relevant, how and to which extent the measures may harm the Union's environmental objectives.***
