Answer given by Executive Vice-President Timmermans  
on behalf of the European Commission  
(26.10.2022)

The list and names of the installations used for the establishment of benchmarks are not publicly available due to business confidentiality restrictions.

Only the aggregated data and benchmark curves per sector as well as a comprehensive summary are publicly available and can be consulted on the Commission website<sup>1</sup>. Current discussions by co-legislators include the possibility to enhance transparency of the best performers.
